

FOR IMMEDIATE RELEASE

BizAtomic Launches Web Site Packages that include Web Site Promotion to help Clients Grow their Business

Select W3, E3, and C3 Website Packages include marketing tools, Website Promotion, and Search Engine Visibility to ensure high keyword ranking in search engines.

St. Augustine, FL (PRWEB) April 21, 2005 -- BizAtomic, a leader in website design and application development, today announced the launch of a new line of [Website Packages](#) that addresses the problem of website promotion as an after thought. BizAtomic websites are now aggressively promoted from day one in order to protect client investments.

BizAtomic's new Website Packages are being offered in three categories, W3 Website Packages, E3 Everywhere Ecommerce Website Packages, and C3 Content Management based Website Packages.

Each category offers a Start-Up, Small Biz, and Enterprise website package. Packages range in price from \$899 to \$10,499. BizAtomic designed the web site packages to meet the business, marketing, and website objectives of small to medium sized businesses at different stages of development and resources.

Start-Up web site packages are designed for new and very small companies sensitive to price and need to defer costs by adding their own content to a custom designed web site.

Small Biz web site packages are designed for small growing companies who want content services, marketing tools, and professional assistance with [Website Promotion](#) to launch their web site. They also require their vendor to provide a full range of marketing and promotion services including professional Search Engine Optimization.

Enterprise web site packages are designed for established, small to medium sized companies that require a turnkey website system. BizAtomic provides all the creative services including Information Architecture analysis and a [Search Engine Visibility](#) press release custom written for any news item.

A Search Engine Visibility Press Release is optimized to get high keyword ranking for up to 30 days in news search engines. Our press release distribution partner PR Web distributes the Search Engine Visibility Press Release to the major search engines, including Google News and Yahoo News.

Small Biz and Enterprise package client's get off on the right foot with initial website promotion included with their packages. All BizAtomic package clients are supported with the availability of an optional comprehensive [Search Engine Optimization](#) program and a complete offering of Internet Marketing and Creative Services.
