

FOR IMMEDIATE RELEASE

Silvergraphs.com is targeting web designers, graphics companies, advertising agencies, marketing firms, and other companies with a requirement for super high-resolution photos and a full range of services for both the uninitiated and professional.

Buda, TX (PRWEB) May 15, 2006 -- Silvergraphs.com is dedicated to providing the highest quality photographs, pictures, and images available online today. Images are grouped by category. Visitors find the images they are looking for by clicking on a category to view related images or by using the website's search function located in the upper right hand corner.

"The easiest way to find what it is you are looking for is by using our search function. It is the best way because we spend so much of our time adding keywords to each image's description so when a search completes every image with that particular keyword shows up", said Sean Taylor, president of Silvergraphs.

Silvergraphs.com updates their site weekly with new photos and information building an ever-growing database of images to ensure their customers can always find what they are looking for.

Some of the services offered include image manipulation, cropping, and resizing of an image, free of charge when you purchase an image from the Silvergraphs website. More extensive changes can be done to the image like color changes or distortion as part of Silvergraphs' graphic services.

Graphic services as simple as business card, flyers, and posters to billboards, brochures, and logo design. Silvergraphs.com relies on over 7 years of experience to guide their customers through the process, if needed Silvergraphs will help coordinate the printing of materials. Silvergraphs also provides book layout services. The layout of a 150 page book takes roughly 6 to 8 hours including illustrations, etc.

Located in Buda, TX Silvergraphs.com began business July, 2005. Their mission is to make available to the public the highest quality images, photos, and pictures online combine with a full range of graphics services, all at an affordable price.
